JAMMU: To bridge the gap between 'Skill and Entrepreneurship,' the Indian Institute of Management Jammu (IIM Jammu) and the Small Industries Development Bank of India (SIDBI) have collaborated to offer a specialized one-year Skill to Enterprise Module (STEM) program for the youth of J&K and Ladakh.

An official spokesperson from IIM Jammu stated, "The program is designed to equip the youth with the necessary knowledge and guidance to start and grow their own businesses. It will provide comprehensive four weeks of residential training with eight weeks of virtual training to help participants develop an understanding of business management, compliance, finance, planning, and strategic aspects of business."

"Candidates will be selected by experts based on the readiness of their ideas and will be provided guidance through industry mentorship and incubation. Two batches of STEM will commence from Dec 4 and Dec 19 at IIM Srinagar and Jammu campuses."

Prof. BS Sahay, Director of IIM Jammu, who conceived this idea for the youth of J&K and played a key role in creating this collaboration with SIDBI, said that the program will help youth realize their full potential, create job opportunities for themselves and others, and contribute to the economic growth of our nation.

"STEM is a joint collaboration between IIM Jammu and SIDBI and is designed to provide entrepreneurs with the necessary knowledge and skills to start and manage their businesses successfully," an IIM Jammu spokesperson added, stating that a total of 60 selected participants will be trained over a period of one year, and the participants will not be charged any fee.

Indian Institute of Management (IIM) Jammu and Small Industries Development Bank of India (SIDBI) have collaborated to offer a specialised one-year-long Skill to Enterprise Module (STEM) programme for students in Jammu and Kashmir, and Ladakh, according to an official on Monday.

Prof BS Sahay, Director, IIM-Jammu, said “The Skill to Enterprise Programme is a much-needed initiative that will enable our youth to become successful entrepreneurs. It will help them realise their full potential, create job opportunities for themselves and others, and contribute to the economic growth of our nation.”

He said that the programme aims to foster innovation and entrepreneurship in the union territories of Jammu and Kashmir, Ladakh by providing practical training, mentorship and access to networks of business professionals.

The programme will commence in two batches starting on December 4 and December 19 at the Srinagar and Jammu campuses of the institute, the official said.

It has been designed to equip the students with the necessary knowledge and guidance to start and grow their businesses in the future, the official added.

It would provide comprehensive four weeks of residential training along with eight weeks of virtual training to help the participants develop an understanding of business management, compliance, finance, planning, and strategic aspects of a business, as per the official.

"The programme will be particularly beneficial for those who have completed a technical course and possess a valuable skill set but lack the required resources and knowledge to start their own business. It will also provide an opportunity for those who wish to gain financial independence and create a positive impact in their own communities through entrepreneurship," the official said.

According to the official, the candidates would be selected by the experts based on the readiness of their ideas and provided with guidance through industry mentorship and incubation.

The trained candidates will be connected to financial institutions through Credit Connect Schemes, the official informed.

"The STEM programme is a joint initiative of IIM Jammu and SIDBI with a total of 60 selected participants to be trained over a period of one year free of cost," the official said.

IIM Jammu, SIDBI collaborate to launch STEM program for entrepreneurial empowerment in J&K

Jammu: The Indian Institute of Management (IIM) Jammu and Small Industries Development Bank of India (SIDBI) recently joined forces to introduce a specialised one-year Skill to Enterprise Module (STEM) program for students in Jammu and Kashmir, as well as Ladakh, according to an official.

The program is scheduled to kick off in two batches, commencing on December 4 and December 19, at the Srinagar and Jammu campuses of the institute, respectively, as informed by the official.

The primary objective of this initiative is to provide students with the essential knowledge and guidance necessary for initiating and expanding their businesses in the future, the official added.

Prof BS Sahay, Director, IIM-Jammu, said “The Skill to Enterprise Programme is a much-needed initiative that will enable our youth to become successful entrepreneurs. It will help them realise their full potential, create job opportunities for themselves and others, and contribute to the economic growth of our nation.”

He said that the programme aims to foster innovation and entrepreneurship in the union territories of Jammu and Kashmir, Ladakh by providing practical training, mentorship and access to networks of business professionals.

The program is meticulously curated to offer students a comprehensive four-week residential training alongside eight weeks of virtual training. This dual approach aims to enhance participants’ understanding of various business facets, including management, compliance, finance, planning, and strategic aspects, according to the official.

The official further explained that the program targets individuals who have completed technical courses, possess valuable skill sets, but lack the requisite resources and knowledge to embark on their entrepreneurial journeys.

It also extends an opportunity for those aspiring to achieve financial independence and make a positive impact on their communities through entrepreneurship.

In the selection process, experts will evaluate candidates based on the readiness of their ideas, and selected participants will receive guidance through industry mentorship and incubation. The trained candidates will be linked with financial institutions through Credit Connect Schemes, the official informed.

The official highlighted that the STEM program is a collaborative effort between IIM Jammu and SIDBI, with a total of 60 selected participants set to undergo free training over a one-year period.

IIM Jammu to launch STEM programme for youth in J&K, Ladakh

[India Today Education Desk](#) New Delhi,UPDATED: Nov 14, 2023 11:40 IST Written

By: [Apoorva Anand](#)

In today's fast-paced world, the youth of our country have shown remarkable potential and proficiency in various technical fields. However, a significant challenge faced by them is the lack of basic knowledge and training in entrepreneurship.

Despite graduating from various good institutes, including ITIs and polytechnics, they often struggle to convert their skills into successful businesses.

To bridge this gap between skill and entrepreneurship, the Indian Institute of Management Jammu (IIM) Jammu and Small Industries Development Bank of India (SIDBI) collaborated to offer a specialised 1 yearlong Skill to Enterprise Module (STEM) programme for youth of J&K and Ladakh.

The programme is designed to equip the youth with the necessary knowledge and guidance to start and grow their businesses.

Prof BS Sahay, Director, IIM-Jammu, said “The Skill to Enterprise Programme is a much-needed initiative that will enable our youth to become successful entrepreneurs. It will help them realise their full potential, create job opportunities for themselves and others, and contribute to the economic growth of our nation.”

He said that the programme aims to foster innovation and entrepreneurship in the union territories of Jammu and Kashmir, Ladakh by providing practical training, mentorship and access to networks of business professionals.

The programme will provide comprehensive 4-week residential training with 8 weeks of virtual training to help the participants develop an understanding of business management, compliance, finance, planning, and strategic aspects of the business. The candidates will be selected by the experts based on the readiness of their ideas and will be guided by industry mentorship and incubation.

There will be two batches of STEM commencing from December 4th and December 17th, 2023 at IIM Jammu’s Srinagar and Jammu campuses.

The programme will be particularly beneficial for those who have completed a technical course and possess a valuable skillset but lack the resources and knowledge to start their own business. It will also provide an opportunity for those who wish to gain financial independence and create a positive impact on their communities through entrepreneurship. The trained candidates will be connected to financial institutions through credit connect schemes.

NEW DELHI: Indian Institute of Management Jammu (IIM Jammu) and Small Industries Development Bank of India (SIDBI) have collaborated to offer a one-year long skill to enterprise module programme for youth of Jammu and Kashmir,

and Ladakh. The programme aims at bridging the gap between skill and entrepreneurship.

The skill to enterprise module programme has been designed to equip the applicants with the knowledge and guidance to start and grow their businesses. Students will be provided four-week residential training and eight-week virtual training.

Subjects such as business management, compliance, finance, planning and strategic aspects of business will be taught to the students. The candidates will be selected by the experts based on the readiness of their ideas and will be provided guidance through industry mentorship and incubation.

Classes start next month

The training will be held in two batches in Jammu and Srinagar campuses of the institute. Classes at Srinagar campus will start on December 4 and at Jammu campus on December 19.

IIM Jammu director BS Sahay said, "The skill to enterprise programme is a much-needed initiative that will enable our youth to become successful entrepreneurs. It will help them realise their full potential, create job opportunities for themselves and others, and contribute to the economic growth of our nation."

He encouraged the youth of Jammu and Kashmir and Ladakh to leverage this opportunity and create success stories for other youth to follow. "The programme will be particularly beneficial for those who have completed a technical course and possess a valuable skill set but lack the resources and knowledge to start their own business," he added.

The programme will provide an opportunity for youth to gain financial independence and create a positive impact in their communities through entrepreneurship. The trained candidates will be connected to financial institutions through credit connect schemes.

IIM Jammu Collaborates with SIDBI to launch Two Batches of Skill to Enterprise Module (STEM) for Youth of J&K and Ladakh” for your kind perusal.

By [skilloutlook](#) / November 13, 2023 / Comments Off on IIM Jammu Collaborates with SIDBI to launch Two Batches of Skill to Enterprise Module (STEM) for Youth of J&K and Ladakh” for your kind perusal.

In today’s fast-paced world, the youth of our country have shown remarkable potential and proficiency in various technical fields. However, a significant challenge faced by them is the lack of basic knowledge and training in entrepreneurship. Despite graduating from various good institutes including ITIs and polytechnics, they often struggle to convert their skills into successful enterprises. To bridge this gap between skill and entrepreneurship, Indian Institute of Management Jammu (IIM) Jammu and Small Industries Development Bank of India (SIDBI) collaborated to offer a specialized 1 yearlong Skill to Enterprise Module (STEM) program for youth of J&K and Ladakh.

Prof B.S. Sahay, Director, IIM-Jammu, said “The Skill to Enterprise Programme is a much-needed initiative that will enable our youth to become successful entrepreneurs. It will help them realise their full potential, create job opportunities for themselves and others, and contribute to the economic growth of our nation.”

He said that the programme aims to foster innovation and entrepreneurship in the union territories of Jammu and Kashmir, Ladakh by providing practical training, mentorship, and access to networks of business professionals.

The program is designed to equip the youth with the necessary knowledge and guidance to start and grow their own businesses. The program will provide comprehensive 4 weeks residential training with 8 weeks virtual training to help the participants develop understanding of business management, compliance, finance, planning and strategic aspects of business. The candidates will be

selected by the experts based on the readiness of their ideas and will be provided guidance through industry mentorship and incubation. There will be two batches of STEM commencing from 4th Dec and 19th Dec 2023 at IIM Jammu's Srinagar and Jammu campuses.

The program will be particularly beneficial for those who have completed a technical course and possess a valuable skillset but lack the resources and knowledge to start their own business. It will also provide an opportunity for those who wish to gain financial independence and create a positive impact in their communities through entrepreneurship. The trained candidates will be connected to financial institutions through credit connect schemes.

The Skill to Enterprise program will be conducted by experienced professionals with a background in business management and entrepreneurship. The program will consist of classroom lectures, case studies, and practical assignments that will enable the participants to apply the concepts and skills learned in real-world scenarios. The STEM program is a joint initiative of IIM Jammu and SIDBI and a total of 60 selected participants will be trained over a period of 1 year and the participants will not be charged any fee.

IIM Jammu Collaborates With SIDBI To Launch STEM Prog For Youth In J&K, Ladakh

November 13, 2023

JAMMU, Nov 13: Indian Institute of Management (IIM) Jammu and Small Industries Development Bank of India (SIDBI) have collaborated to offer a specialised one-year-long Skill to Enterprise Module (STEM) programme for students in Jammu and Kashmir, and Ladakh, according to an official on Monday.

The programme will commence in two batches starting on December 4 and December 19 at the Srinagar and Jammu campuses of the institute, the official said. It has been designed to equip the students with the necessary knowledge and guidance to start and grow their businesses in the future, the official added.

It would provide comprehensive four weeks of residential training along with eight weeks of virtual training to help the participants develop an understanding of business management, compliance, finance, planning, and strategic aspects of a business, as per the official.

"The programme will be particularly beneficial for those who have completed a technical course and possess a valuable skill set but lack the required resources and knowledge to start their own business. It will also provide an opportunity for those who wish to gain financial independence and create a positive impact in their own communities through entrepreneurship," the official said.

The programme was formally launched by Prof B S Sahay, Director IIM Jammu, who conceived this idea for the youth of J&K and was instrumental in creating this collaboration with SIDBI.

According to the official, the candidates would be selected by the experts based on the readiness of their ideas and provided with guidance through industry mentorship and incubation.

The trained candidates will be connected to financial institutions through Credit Connect Schemes, the official informed.

"The STEM programme is a joint initiative of IIM Jammu and SIDBI with a total of 60 selected participants to be trained over a period of one year free of cost," the official said. (Agencies)

IIM Jammu collaborates with SIDBI to launch STEM batches

GK NEWS SERVICE

Jammu, Nov 13: In today's fast-paced world, the youth of our country have shown remarkable potential and proficiency in various technical fields. However, a significant challenge faced by them is the lack of basic knowledge and training in entrepreneurship.

Despite graduating from various good institutes including ITIs and polytechnics, they often struggle to convert their skills into successful enterprises. To bridge this gap between skill and entrepreneurship, Indian Institute of Management Jammu (IIM) Jammu and Small Industries Development Bank of India (SIDBI) collaborated to offer specialized 1 yearlong Skill to Enterprise Module (STEM) programme for youth of J&K and Ladakh.

The programme is designed to equip the youth with the necessary knowledge and guidance to start and grow their own businesses. The programme will provide comprehensive 4 weeks residential training with 8 weeks virtual training to help the participants develop understanding of

business management, compliance, finance, planning and strategic aspects of business. The candidates will be selected by the experts based on the readiness of their ideas and will be provided guidance through industry mentorship and incubation. There will be two batches of STEM commencing from 4th Dec and 19th Dec 2023 at IIM Jammu's Srinagar and Jammu campuses.

While launching the program, Prof. B.S. Sahay, Director, IIM Jammu, who conceived this idea for the youth of J&K and was instrumental in creating this collaboration with SIDBI shared his views as, "The Skill to Enterprise Programme is a much-needed initiative that will enable our youth to become successful entrepreneurs. It will help them realize their full potential, create job

opportunities for themselves and others, and contribute to the economic growth of our nation. STEM is a joint collaboration between IIM Jammu and SIDBI and designed to provide entrepreneurs with the necessary knowledge and skills to start and manage their businesses successfully. The program aims to foster innovation and entrepreneurship in J&K by providing practical training, mentorship, and access to networks of business professionals." He encouraged the youth of J&K to leverage this opportunity and create success stories for their youth to follow

The programme will be particularly beneficial for those who have completed a technical course and possess a valuable skillset but lack the resources and knowledge to start their own business. It will also provide an oppor-

tunity for those who wish to gain financial independence and create a positive impact in their communities through entrepreneurship. The trained candidates will be connected to financial institutions through credit connect schemes.

The Skill to Enterprise program will be conducted by experienced professionals with a background in business management and entrepreneurship. The programme will consist of classroom lectures, case studies, and practical assignments that will enable the participants to apply the concepts and skills learned in real-world scenarios.

The STEM program is a joint initiative of IIM Jammu and SIDBI and a total of 60 selected participants will be trained over a period of 1 year and the participants will not be charged any fee.

IIM Jammu, SIDBI offer skill to enterprise module programme to J&K youth

BK BUSINESS DESK

NEW DELHI: Indian Institute of Management Jammu (IIM Jammu) and Small Industries Development Bank of India (SIDBI) have collaborated to offer a one-year long skill to enterprise module programme for youth of Jammu and Kashmir, and Ladakh. The programme aims at bridging the gap between skill and entrepreneurship.

The skill to enterprise module programme has been designed to equip the applicants with the knowledge and guidance to start and grow their businesses. Students will be provided four-week residential training and eight-week virtual training.

Subjects such as business management, compliance, finance, plan-

ning and strategic aspects of business will be taught to these students. The candidates will be selected by the experts based on the readiness of their ideas and will be provided guidance through industry mentorship and incubation.

Classes start next month.

The training will be held in two batches in Jammu and Srinagar campuses of the institute. Classes at Srinagar campus will start on December 4 and at Jammu campus on December 19.

IIM Jammu director BS Sahay said, "The skill to enterprise programme is a much-needed initiative that will enable our youth to become successful entrepreneurs. It will help them realise their full potential, create job opportunities for themselves and others, and

contribute to the economic growth of our nation."

He encouraged the youth of Jammu and Kashmir and Ladakh to leverage this opportunity and create success stories for other youth to follow. "The programme will be particularly beneficial for those who have completed a technical course and possess a valuable skill set but lack the resources and knowledge to start their own business," he added.

The programme will provide an opportunity for youth to gain financial independence and create a positive impact in their communities through entrepreneurship. The trained candidates will be connected to financial institutions through credit connect schemes.

IIM collaborates with SIDBI to launch STEM prog for youth in J&K, Ladakh

■ TNN BUREAU

JAMMU: Indian Institute of Management (IIM) Jammu and Small Industries Development Bank of India (SIDBI) have collaborated to offer a specialised one-year-long Skill to Enterprise Module (STEM) programme for students in Jammu and Kashmir, and Ladakh, according to an official on Monday.

The programme will

commence in two batches starting on December 4 and December 19 at the Srinagar and Jammu campuses of the institute, the official said.

It has been designed to equip the students with the necessary knowledge and guidance to start and grow their businesses in the future, the official added.

It would provide comprehensive four weeks

of residential training along with eight weeks of virtual training to help the participants develop an understanding of business management, compliance, finance, planning, and strategic aspects of a business, as per the official.

"The programme will be particularly beneficial for those who have completed a technical course and possess a valuable skill set but lack

the required resources and knowledge to start their own business. It will also provide an opportunity for those who wish to gain financial independence and create a positive impact in their own communities through entrepreneurship," the official said.

According to the official, the candidates would be selected by the experts based on the readiness of their ideas and provided with guid-

ance through industry mentorship and incubation.

The trained candidates will be connected to financial institutions through Credit Connect Schemes, the official informed.

"The STEM programme is a joint initiative of IIM Jammu and SIDBI with a total of 60 selected participants to be trained over a period of one year free of cost," the official said.

IIM Jammu collaborates with SIDBI to launch 2 batches of STEM for Youth of J&K, Ladakh

**HIMALAYAN MAIL NEWS
JAMMU, NOV 13**

In today's fast-paced world, the youth of our country have shown remarkable potential and proficiency in various technical fields. However, a significant challenge faced by them is the lack of basic knowledge and training in entrepreneurship. Despite graduating from various good institutes including ITIs and polytechnics, they often struggle to convert their skills into successful enterprises. To bridge this gap between skill and entrepreneurship, Indian Institute of Management Jammu (IIM) Jammu and

Small Industries Development Bank of India (SIDBI) collaborated to offer a specialized 1 yearlong Skill to Enterprise Module (STEM) program for youth of J&K and Ladakh.

The program is designed to equip the youth with the necessary knowledge and guidance to start and grow their own businesses. The program will provide comprehensive 4 weeks residential training with 8 weeks virtual training to help the participants develop understanding of business management, compliance, finance, planning and strategic aspects of business. The candidates will be selected by the ex-

perts based on the readiness of their ideas and will be provided guidance through industry mentorship and incubation. There will be two batches of STEM commencing from 4th Dec and 19th Dec 2023 at IIM Jammu's Srinagar and Jammu campuses. The program will be particularly beneficial for those who have completed a technical course and possess a valuable skillset but lack the resources and knowledge to start their own business. It will also provide an opportunity for those who wish to gain financial independence and create a positive impact in their communities through entrepreneurship. The

trained candidates will be connected to financial institutions through credit connect schemes.

The Skill to Enterprise program will be conducted by experienced professionals with a background in business management and entrepreneurship. The program will consist of classroom lectures, case studies, and practical assignments that will enable the participants to apply the concepts and skills learned in real-world scenarios. The STEM program is a joint initiative of IIM Jammu and SIDBI and a total of 60 selected participants will be trained over a period of 1 year and the participants will not be charged any fee.

IIM Jammu Collaborates with SIDBI to launch two batches of skill to enterprise module for Youth of J&K and Ladakh

Jammu, November 13 (Scoop News)- In today's fast-paced world, the youth of our country have shown remarkable potential and proficiency in various technical fields. However, a significant challenge faced by them is the lack of basic knowledge and training in entrepreneurship. Despite graduating from various good institutes including ITIs and polytechnics, they often struggle to convert their skills into successful enterprises. To bridge this gap between skill and entrepreneurship, Indian Institute of Management Jammu (IIM) Jammu and Small Industries Development Bank of India (SIDBI) collaborated to offer specialized 1 yearlong Skill to Enterprise Module (STEM) program for youth of J&K and Ladakh.

The program is designed to equip the youth with the necessary knowledge and guidance to start and grow their own businesses. The program will provide comprehensive 4 weeks residential training with 8 weeks virtual training to help the participants develop understanding of business management, compliance, finance, planning and strategic aspects of business. The candidates will be selected by the experts based on the readiness of their ideas and will be provided guidance through industry mentorship and incubation. There will be two batches of STEM commencing from 4th Dec and 19th Dec 2023 at IIM Jammu's Srinagar and Jammu campuses.

While launching the program, Prof. B.S. Sahay, Director, IIM Jammu, who conceived this idea for the youth of J&K and was instrumental in creating this collaboration with SIDBI shared his views as, "The Skill to Enterprise Programme is a much-needed initiative that will enable our youth to become successful entrepreneurs. It will help them realize their full potential, create job opportunities for themselves and others, and contribute to the economic growth of our nation. STEM is a joint collaboration between IIM Jammu and SIDBI and designed to provide entrepreneurs with the necessary knowledge and skills to start and manage their businesses successfully. The program aims to foster innovation and entrepreneurship in J&K by providing practical training, mentorship, and access to networks of business professionals." He encouraged the youth of J&K to leverage this opportunity and create success stories for other youth to follow

The program will be particularly beneficial for those who have completed a technical course and possess a valuable skillset but lack the resources and knowledge to start their own business. It will also provide an opportunity for those who wish to gain financial independence and create a positive impact in their communities through

entrepreneurship. The trained candidates will be connected to financial institutions through credit connect schemes.

The Skill to Enterprise program will be conducted by experienced professionals with a background in business management and entrepreneurship. The program will consist of classroom lectures, case studies, and practical assignments that will enable the participants to apply the concepts and skills learned in real-world scenarios.

The STEM program is a joint initiative of IIM Jammu and SIDBI and a total of 60 selected participants will be trained over a period of 1 year and the participants will not be charged any fee.

IIM Jammu Collaborates with SIDBI to launch to batches of Skill to Enterprise Module

13/11/2023

Jammu, November 13 (KIP)- In today's fast-paced world, the youth of our country have shown remarkable potential and proficiency in various technical fields. However, a significant challenge faced by them is the lack of basic knowledge and training in entrepreneurship. Despite graduating from various good institutes including ITIs and polytechnics, they often struggle to convert their skills into successful enterprises. To bridge this gap between skill and entrepreneurship, Indian Institute of Management Jammu (IIM) Jammu and Small Industries Development Bank of India (SIDBI) collaborated to offer specialized 1 yearlong Skill to Enterprise Module (STEM) program for youth of J&K and Ladakh.

The program is designed to equip the youth with the necessary knowledge and guidance to start and grow their own businesses. The program will provide comprehensive 4 weeks residential training with 8 weeks virtual training to help the participants develop understanding of business management, compliance, finance, planning and strategic aspects of business. The candidates will be selected by the experts based on the readiness of their ideas and will be provided guidance through industry mentorship and incubation. There will be two batches of STEM commencing from 4th Dec and 19th Dec 2023 at IIM Jammu's Srinagar and Jammu campuses.

While launching the program, Prof. B.S. Sahay, Director, IIM Jammu, who conceived this idea for the youth of J&K and was instrumental in creating this collaboration with SIDBI shared his views as, "The Skill to Enterprise Programme is a much-needed initiative that will enable our youth to become successful entrepreneurs. It will help them realize their full potential, create job opportunities for themselves and others, and contribute to the economic growth of our nation. STEM is a joint collaboration between IIM Jammu and SIDBI and designed to provide entrepreneurs with the necessary knowledge and skills to start and manage their businesses successfully. The program aims to foster innovation and entrepreneurship in J&K by providing practical training, mentorship, and access to networks of business professionals." He encouraged the youth of J&K to leverage this opportunity and create success stories for other youth to follow

The program will be particularly beneficial for those who have completed a technical course and possess a valuable skillset but lack the resources and knowledge to start their own business. It will also provide an opportunity for those who wish to gain financial independence and create a positive impact in their communities through entrepreneurship. The trained candidates will be connected to financial institutions through credit connect schemes.

IIM Jammu Collaborates With SIDBI To Launch STEM Prog For Youth In J&K, Ladakh

by [Agencies](#) [November 13, 2023](#) in [Latest Update](#)

JAMMU, Nov 13: Indian Institute of Management (IIM) Jammu and Small Industries Development Bank of India (SIDBI) have collaborated to offer a specialised one-year-long Skill to Enterprise Module (STEM) programme for students in Jammu and Kashmir, and Ladakh, according to an official on Monday.

The programme will commence in two batches starting on December 4 and December 19 at the Srinagar and Jammu campuses of the institute, the official said. It has been designed to equip the students with the necessary knowledge and guidance to start and grow their businesses in the future, the official added. It would provide comprehensive four weeks of residential training along with eight weeks of virtual training to help the participants develop an understanding of business management, compliance, finance, planning, and strategic aspects of a business, as per the official.

"The programme will be particularly beneficial for those who have completed a technical course and possess a valuable skill set but lack the required resources and knowledge to start their own business. It will also provide an opportunity for those who wish to gain financial independence and create a positive impact in their own communities through entrepreneurship," the official said.

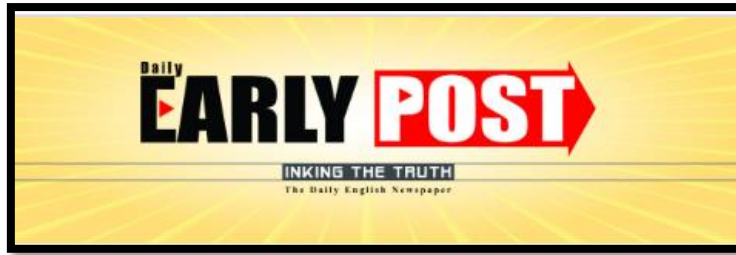

While launching the program, Prof. B.S. Sahay, Director, IIM Jammu, who conceived this idea for the youth of J&K and was instrumental in creating this collaboration with SIDBI shared his views as, "The Skill to Enterprise Programme is a much-needed initiative that will enable our youth to become successful entrepreneurs. It will help them realize their full potential, create job opportunities for themselves and others, and contribute to the economic growth of our nation. STEM is a joint collaboration between IIM Jammu and SIDBI and designed to provide entrepreneurs with the necessary knowledge and skills to start and manage their businesses successfully. The program aims to foster innovation and entrepreneurship in J&K by providing practical training, mentorship, and access to networks of business professionals." He encouraged the youth of J&K to leverage this opportunity and create success stories for other youth to follow

According to the official, the candidates would be selected by the experts based on the readiness of their ideas and provided with guidance through industry mentorship and incubation.

The trained candidates will be connected to financial institutions through Credit Connect Schemes, the official informed.

"The STEM programme is a joint initiative of IIM Jammu and SIDBI with a total of 60 selected participants to be trained over a period of one year free of cost," the official said.

IIM Jammu Partners with SIDBI to Introduce STEM Program for Youth in J&K, Ladakh

November 13, 2023

JAMMU, Nov 13: The Indian Institute of Management (IIM) Jammu has joined hands with the Small Industries Development Bank of India (SIDBI) to introduce a one-year-long Skill to Enterprise Module (STEM) program for students in Jammu and Kashmir, as well as Ladakh, as announced by an official on Monday.

Prof B.S. Sahay, Director, IIM-Jammu, said "The Skill to Enterprise Programme is a much-needed initiative that will enable our youth to become successful entrepreneurs. It will help them realise their full potential, create job opportunities for themselves and others, and contribute to the economic growth of our nation."

He said that the programme aims to foster innovation and entrepreneurship in the union territories of Jammu and Kashmir, Ladakh by providing practical training, mentorship, and access to networks of business professionals.

The program is set to commence in two batches, beginning on December 4 and December 19, at the Srinagar and Jammu campuses of the institute. It aims to provide students with the necessary knowledge and guidance to initiate and expand their businesses in the future, the official stated.

The STEM program will offer a comprehensive four weeks of residential training, coupled with eight weeks of virtual training. This structure is designed to help participants develop a solid understanding of business management, compliance, finance, planning, and strategic aspects of running a business, according to the official.

The program is particularly beneficial for individuals who have completed technical courses and possess valuable skill sets but lack the essential resources and knowledge to start their own businesses. It also offers an opportunity for those seeking financial independence and aiming to make a positive impact in their communities through entrepreneurship.

The selection of candidates for the program will be based on the readiness of their ideas, and they will receive guidance through industry mentorship and incubation. Additionally, the trained candidates will be connected to financial institutions through Credit Connect Schemes, the official informed.

The STEM program, a joint initiative of IIM Jammu and SIDBI, will train a total of 60 selected participants over a one-year period free of cost, the official added.

IIM Jammu partners with SIDBI to introduce STEM program for youth in J&K and Ladakh

Nov 13, 2023, 02:06 pm IST

IIM Jammu and the Small Industries Development Bank of India (SIDBI) have joined forces to introduce a specialized one-year Skill to Enterprise Module (STEM) program for students in Jammu and Kashmir, as well as Ladakh, according to an announcement on Monday. The program is set to commence in two batches, starting on December 4 and December 19, respectively, at the institute's campuses in Srinagar and Jammu.

Prof B.S. Sahay, Director, IIM-Jammu, said "The Skill to Enterprise Programme is a much-needed initiative that will enable our youth to become successful entrepreneurs. It will help them realise their full potential, create job opportunities for themselves and others, and contribute to the economic growth of our nation."

He said that the programme aims to foster innovation and entrepreneurship in the union territories of Jammu and Kashmir, Ladakh by providing practical training, mentorship, and access to networks of business professionals.

Crafted to empower students with essential knowledge for initiating and expanding their businesses in the future, the STEM program will offer a comprehensive curriculum. It includes four weeks of residential training and an additional eight weeks of virtual training, focusing on aspects such as business management, compliance, finance, planning, and strategic elements, as explained by an official. The initiative is particularly geared towards individuals who have completed technical courses and possess valuable skill sets but lack the resources and knowledge to kickstart their enterprises. It also aims to provide an opportunity for those aspiring to achieve financial independence and make a positive impact in their communities through entrepreneurship.

The official emphasized that candidate selection would be based on the readiness of their ideas, with experts offering guidance through industry mentorship and incubation. Additionally, the trained participants will be linked to financial institutions through Credit Connect Schemes, facilitating their business endeavors. Described as a joint effort between IIM Jammu and SIDBI, the STEM program is designed to train a total of 60 selected participants over a year, free of cost, marking a significant collaboration to foster entrepreneurship and skill development in the region.

JAMMU: To bridge the gap between 'Skill and Entrepreneurship,' the Indian Institute of Management Jammu (IIM Jammu) and the Small Industries Development Bank of India (SIDBI) have collaborated to offer a specialized one-year Skill to Enterprise Module (STEM) program for the youth of J&K and Ladakh.

An official spokesperson from IIM Jammu stated, "The program is designed to equip the youth with the necessary knowledge and guidance to start and grow their own businesses. It will provide comprehensive four weeks of residential training with eight weeks of virtual training to help participants develop an understanding of business management, compliance, finance, planning, and strategic aspects of business."

"Candidates will be selected by experts based on the readiness of their ideas and will be provided guidance through industry mentorship and incubation.

Two batches of STEM will commence from Dec 4 and Dec 19 at IIM Srinagar and Jammu campuses."

Prof. BS Sahay, Director of IIM Jammu, who conceived this idea for the youth of J&K and played a key role in creating this collaboration with SIDBI, said that the program will help youth realize their full potential, create job opportunities for themselves and others, and contribute to the economic growth of our nation.

"STEM is a joint collaboration between IIM Jammu and SIDBI and is designed to provide entrepreneurs with the necessary knowledge and skills to start and manage their businesses successfully," an IIM Jammu spokesperson added, stating that a total of 60 selected participants will be trained over a period of one year, and the participants will not be charged any fee.
