The topic of the discussion was- 'Future of Work- Jobs lost Equal to Jobs Gained'

Mohit Sharma commenced the discussion and talked about how the 4th Industrial revolution is shaping the corporate landscape.

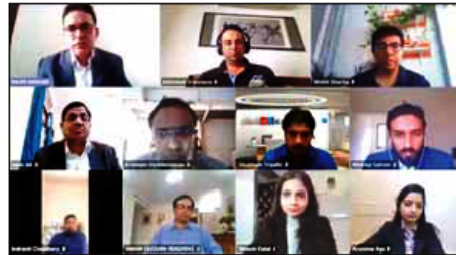

He talked about how people feared massive job losses with the advent of computers but the technology actually helped in creation of more jobs.

Shubham Tripathi rejected the older belief and clarified that it is 'Man with Machine', and not 'Man vs. Machine'.

He illustrated how a both can do multiple functions at a time, but it cannot replace the humans at work.

He urged people to consider technology as a partner and not as a rival.

Abhishek Srivastava said that AI and technology are

doing tasks that require heavy man power. He advised students to look at the opportunities instead of fearing the changing times.

Prathap Kumar threw light on the concept of 'Survival of the Fittest', giving the example of Xerox, he said that upgrading and upskilling yourself is what is needed to make sure that we stay in the market.

Atulaya Goswami said that jobs are going to become more strategic, and hence, keeping connected with people outside the organization will help us to predict the outer world more accurately.

Mussarat Hussain enlightened on how technology will disrupt the supply chain, and that having a myopic view would not let us adapt

and build new skills according to the new times.

Indranil Choudhury emphasized the fact that it's no more about the hours that you put in, rather it's about the outcome which matters at the end of day.

Krishnan Venkiteswaran cited the example of Big Bazaar, and illustrated how it actually created more jobs, contrary to the initial belief was that it will destroy local businesses.

He also shed light on how people resisted the 'Work from Home' culture at first, but now are supporting it.

In the second panel, discussion revolved around the topic 'Reskilling Revolution-Roadmap to Post-COVID age'.

The keynote speaker for

the second round was Capt. Partha Samal, Executive Vice President & Group Head Human Resource, AGS Transact Technologies who started the discussion by an army quote, 'I am a fighter, I will fight when I am told and I win where I fight'.

Capt. Samal stated how COVID hasn't stopped the flow of organizations even in such unprecedented times.

He highlighted the role of technology in these difficult times by stating how Geography has become a history now as the digitization of work removed all the constraints successfully.

The session was followed by the insights of Manish Bhardwaj, Director- Group HR Lead- APAC, Latin America-Africa, Dr. Reddy's Laboratories, who mentioned how HR managers across different industries were able to sail through in managing the mind-set of the employees.

"Things like COVID don't knock on your door, you have to be ready" he added.

Bhardwaj, Kornica Ganguly, Talent Acquisition, Cipla, took over the virtual stage and spoke about how reskilling has become impor-

tant in the pertaining times.

"COVID-19 won't last for long hopefully, but its impact is here to stay. Even the least hit sectors by COVID-19 had to revamp their business models, but the good thing is, organizations are seeing it as an opportunity rather than a re-organizing problem" Ganguly added.

She also mentioned the most important skills to be picked in these times- digital adoption, empathetic managerial skills, network leadership and better decision making skills.

Himanshu Vora, General Manager Operation, Aditi Toys Pvt. Ltd. added to the discussion by highlighting the importance of knowledge and skill enhancement in these difficult times.

Bikram K Nayak, Head HR, L&T- NxT, continued the discussion by mentioning how Talent Acquisition process has transformed due to the advent of pandemic and the role of technology in it.
