ALUMNI TESTIMONIALS

My journey with IIM Jammu has been one of a kind. When I look back, I feel that my decision to take a break from my professional life to give a new direction to my career led to an ever-fulfilling experience at IIM-J. The institute has helped me realize my strength, explore new avenues and come out victorious from challenging situations. Apart from the continual support and guidance from the esteemed faculty, the learnings from my peers have been instrumental in shaping up my journey of "MBA-morphosis". Today, I am a proud alumnus of IIM Jammu, realizing my dream role of Product Manager and I give due credit to the rich IIM pedagogy for this.

The decision to join IIM Jammu has been a tough one for me, given I was taking a break from a fulfilling career in IT Service Management for close to 8 years. And today I believe it was the right thing to do given the immense learning that I have acquired, experiences that I faced and will treasure the memories for life. IIM Jammu has all the required ingredients to be one of the finest business schools globally in the coming few years.

The batch is a truly diverse blend of educational backgrounds, work experiences and skillsets, which challenged me in developing into a better version of myself with every passing day. The institute has been instrumental in helping me further my quest for newer avenues in form of support from the esteemed professors, knowledge resources and repositories. On a very personal front, I was able to let go of my inhibitions and participated in several competitions, like the Hult Prize and represented our institute competing with participants from various countries. Learning from my peers is irreplaceable and helped me gain a much-needed perspective of looking at things. Today, as a member of the IIM Jammu family, I am a braver and much open to criticism, and well equipped for the business world, owing to the pedagogy and the peers.

IIM Jammu did not only provide me with a platform to develop a varied set of skills but also a platform to interchange ideas with a diversified pool of people. Starting from the intellectual batchmates to the eminent persons from different domains and industries, each one of them gave some valuable insight that has enriched my thought process. The international exposure through IIP at ESCP Berlin gave me hands-on experience with diversity and inclusivity. Moreover, it gave me a better understanding of organizations and business acumen on an international level. The last two years at IIM-J have brought out a fine personality in me by enhancing my knowledge, and confidence. At the same time, the place has taught me to be humble whatsoever. I will preserve and cherish all the learnings (professional as well as personal) from my stay at IIM-J throughout my life. I will always be indebted to the Institute for all my future endeavors.

My stay in IIM-J has carved out a fine personality in me coupled with knowledge, confidence and audacity to face the real-world business challenges and come up with ingenious solutions. As an alumnus of IIM Jammu, I'm a proud individual for being a part of the fraternity and able to learn and grow in multitude. After a few years of experience in the corporate world, I decided to join IIM-J. Having shared my space and moments with amazingly brilliant people all around for the past 2 years, I feel it has exposed me to explore new horizons, broadened my thought process and curated an entrepreneurial mindset which I'll celebrate and cherish for life through my work and achievements!

TESTIMONIALS OF PROMINENT SPEAKERS

On the 28th of January, 2020, late evening, I was in IIM Jammu on an Industry Interaction Program and I have been quite impressed with the quality of the students. The level interaction and the quality of the questions that were being raised are very mature and are of a very high level. The students were well versed with the management concepts and their application and they demonstrated that all of them are future leaders of India Inc and all of them are ready to take up challenging assignments. I also got an opportunity to interact with their Director and some of their faculty who are highly qualified and Industry experience and helping the students to transform into future leaders.

The students were interactive and vocal during the presentation and I appreciated all their questions. They showed an interest in the industry in general and the company in particular. The students are inquisitive, engaged, eager to grasp and understand. They seem like bright bunch who have the potential to be Industry leaders in the times to come. My best wishes to them in every endeavor they venture out in the world for.

As part of the IIM Jammu Industry Interaction Program, I visited Jammu on a foggy morning during the month of December. Due to tight schedule on both the side, date 15th December was finalized on a Sunday, and when I entered the class every bench in the class was filled with students which showed the commitment of students as well as Institute culture.

The topic for the day "AI & Data Strategy" and its adoption by fortune 500 firms was discussed with rapt attention and curiosity. Though Data Strategy has caught the attention of C-Suites in the industry in the last few years, what really impressed me about the students was the ability to absorb the concepts, ask questions that impact the industry & what new problems arise with the growth of data. Overall at the end of the session, it is the two-way interaction that makes you realize how indeed students were able to grasp and realize the new world which we are entering with the growth of Data and AI.
